

## Research Associate Position

Position Title: Research Associate I  
Working Location: San Francisco, CA  
Employment Status: Full-Time Regular  
Required Experience: None  
Required Education: Bachelors Degree  
Required Travel: 0%  
Start Date: Flexible

The Federal Reserve Bank of San Francisco, which serves the largest district within the Federal Reserve System, is looking for candidates to assist with the vital work of the Economic Research Department.

### **Position Description:**

The position is ideal for students considering graduate study in Economics or related fields. Research Associates support economists in academic research, monetary policy analysis, and economic briefings by gathering, preparing, and analyzing data, implementing econometric models, preparing charts and tables, fact-checking, and reviewing relevant literature.

### **Requirements:**

Superior academic record. Bachelors degree in Finance or Economics with a quantitative background (especially econometrics, statistics, and mathematics); or intermediate level coursework in economics or finance with a related quantitative major. Demonstrated ability to think clearly as shown by data analysis, writing, and communication. Programming experience is advantageous. Previous research experience is also valued.

To apply, please submit your information and application on-line at:
