

Interested in consulting?

Simon-Kucher & Partners is looking for talented, creative individuals to join its Life Sciences, TTT and Banking divisions. Interested candidates, please submit all applications via the OCS on-campus recruiting system by **Wednesday, October 21, 2009**.

About SKP

Simon-Kucher & Partners (SKP) is a global consulting firm with over 450 consultants in 18 offices worldwide. We have worked on thousands of projects providing strategy and marketing guidance and are regarded as the world's leading pricing advisor.

At SKP, we work on project teams typically consisting of 3-5 consultants. This limits bureaucracy, gives our associates an opportunity to grow and take on new roles, and ensures that all team members can make a meaningful contribution.

Our Life Sciences and TTT divisions operate out of our US offices as well as overseas. In LS we have worked with 24 of the top 25 biotech and pharmaceutical companies and have developed strategies for 7 of the 10 best-selling drugs worldwide. SKP has also worked on over 35 projects for medical device / diagnostic companies since 2005. 75% of our projects have an international component. Our TTT clients range from global manufacturing, high tech, and software to entertainment and logistics. We have served more than 100 of the Global Fortune 500 companies and conducted projects in more than 55 different countries.

2007 marked the opening of the US branch of the Banking Division on Wall Street in New York City. The US branch joins a global division in which some of the world's largest banks and insurance companies seek our advice because of the rapid returns we generate for our clients through state-of-the-art methods, high impact recommendations and stringent execution.

Interested candidates, please submit applications through OCS E-recruiting or email me if you have further questions.
