

Analyst Job Opening

JOB OPPORTUNITY

Full-time, Analyst position for a boutique strategy consulting firm located in downtown Seattle.

WHO WE LOOK FOR

"You Can't Teach Tall." This quote from a former basketball coach sums up our recruiting strategy. We look for sharp, analytical problem solvers. Everything else, we can teach. We look for people with intellectual stamina and curiosity, not a particular focus or major. Undergraduate majors of current employees include Chemical Engineering, English, Psychology, Business, Pre-Med and Oceanography.

HOW TO APPLY

Submit your resume and cover letter to us at: www.lakepartners.com/careers

What We Do

WE DIG FOR DATA

We know the price of any pharmaceutical drug sold over the last two years.

WE TALK TO PEOPLE

We call people & use online surveys to figure out how & why people buy things, from health care plans to theater tickets to hearing aids to dirt.

WE DO RESEARCH

We know what drives the price of a tomato in Manhattan. We know where obscure car parts are manufactured in China.

WE BUILD MODELS

We accurately projected bond valuations based on data from five million mortgages.

WE ANALYZE PROBLEMS

We figured out where to open luxury product stores combining customer demographics & geographic clustering.

WE GIVE OUR CLIENTS TOOLS THEY CAN USE

We helped investment firms implement sustainable operational models.

Lake Partners offers high-end strategy consulting without the high-end attitude. We stripped away the buzzwords and frameworks and found that strategy consulting is about getting the right answer quickly.
